EASTER SUDOKU

This is a fun way to practice your maths and logical skills. Maybe it's difficult to solve the first puzzle but don't give up, it's just a matter of practice.

Every 2x2 block must include all shapes of  ,  ,  and  .

That means every block should only contain each of these shapes once. The same rules are valid for every row or column. Have fun with this sudoku.

Good luck!
