

Icy's Adventures with Miss Manaton!

Icy has had a lovely few weeks helping Miss Manaton out at home! What a helpful penguin Icy has been! Icy is now Emperor Penguin of the dishwasher and can empty and reload it without Miss Manaton even noticing now!

Have you discovered any new foods this last month?

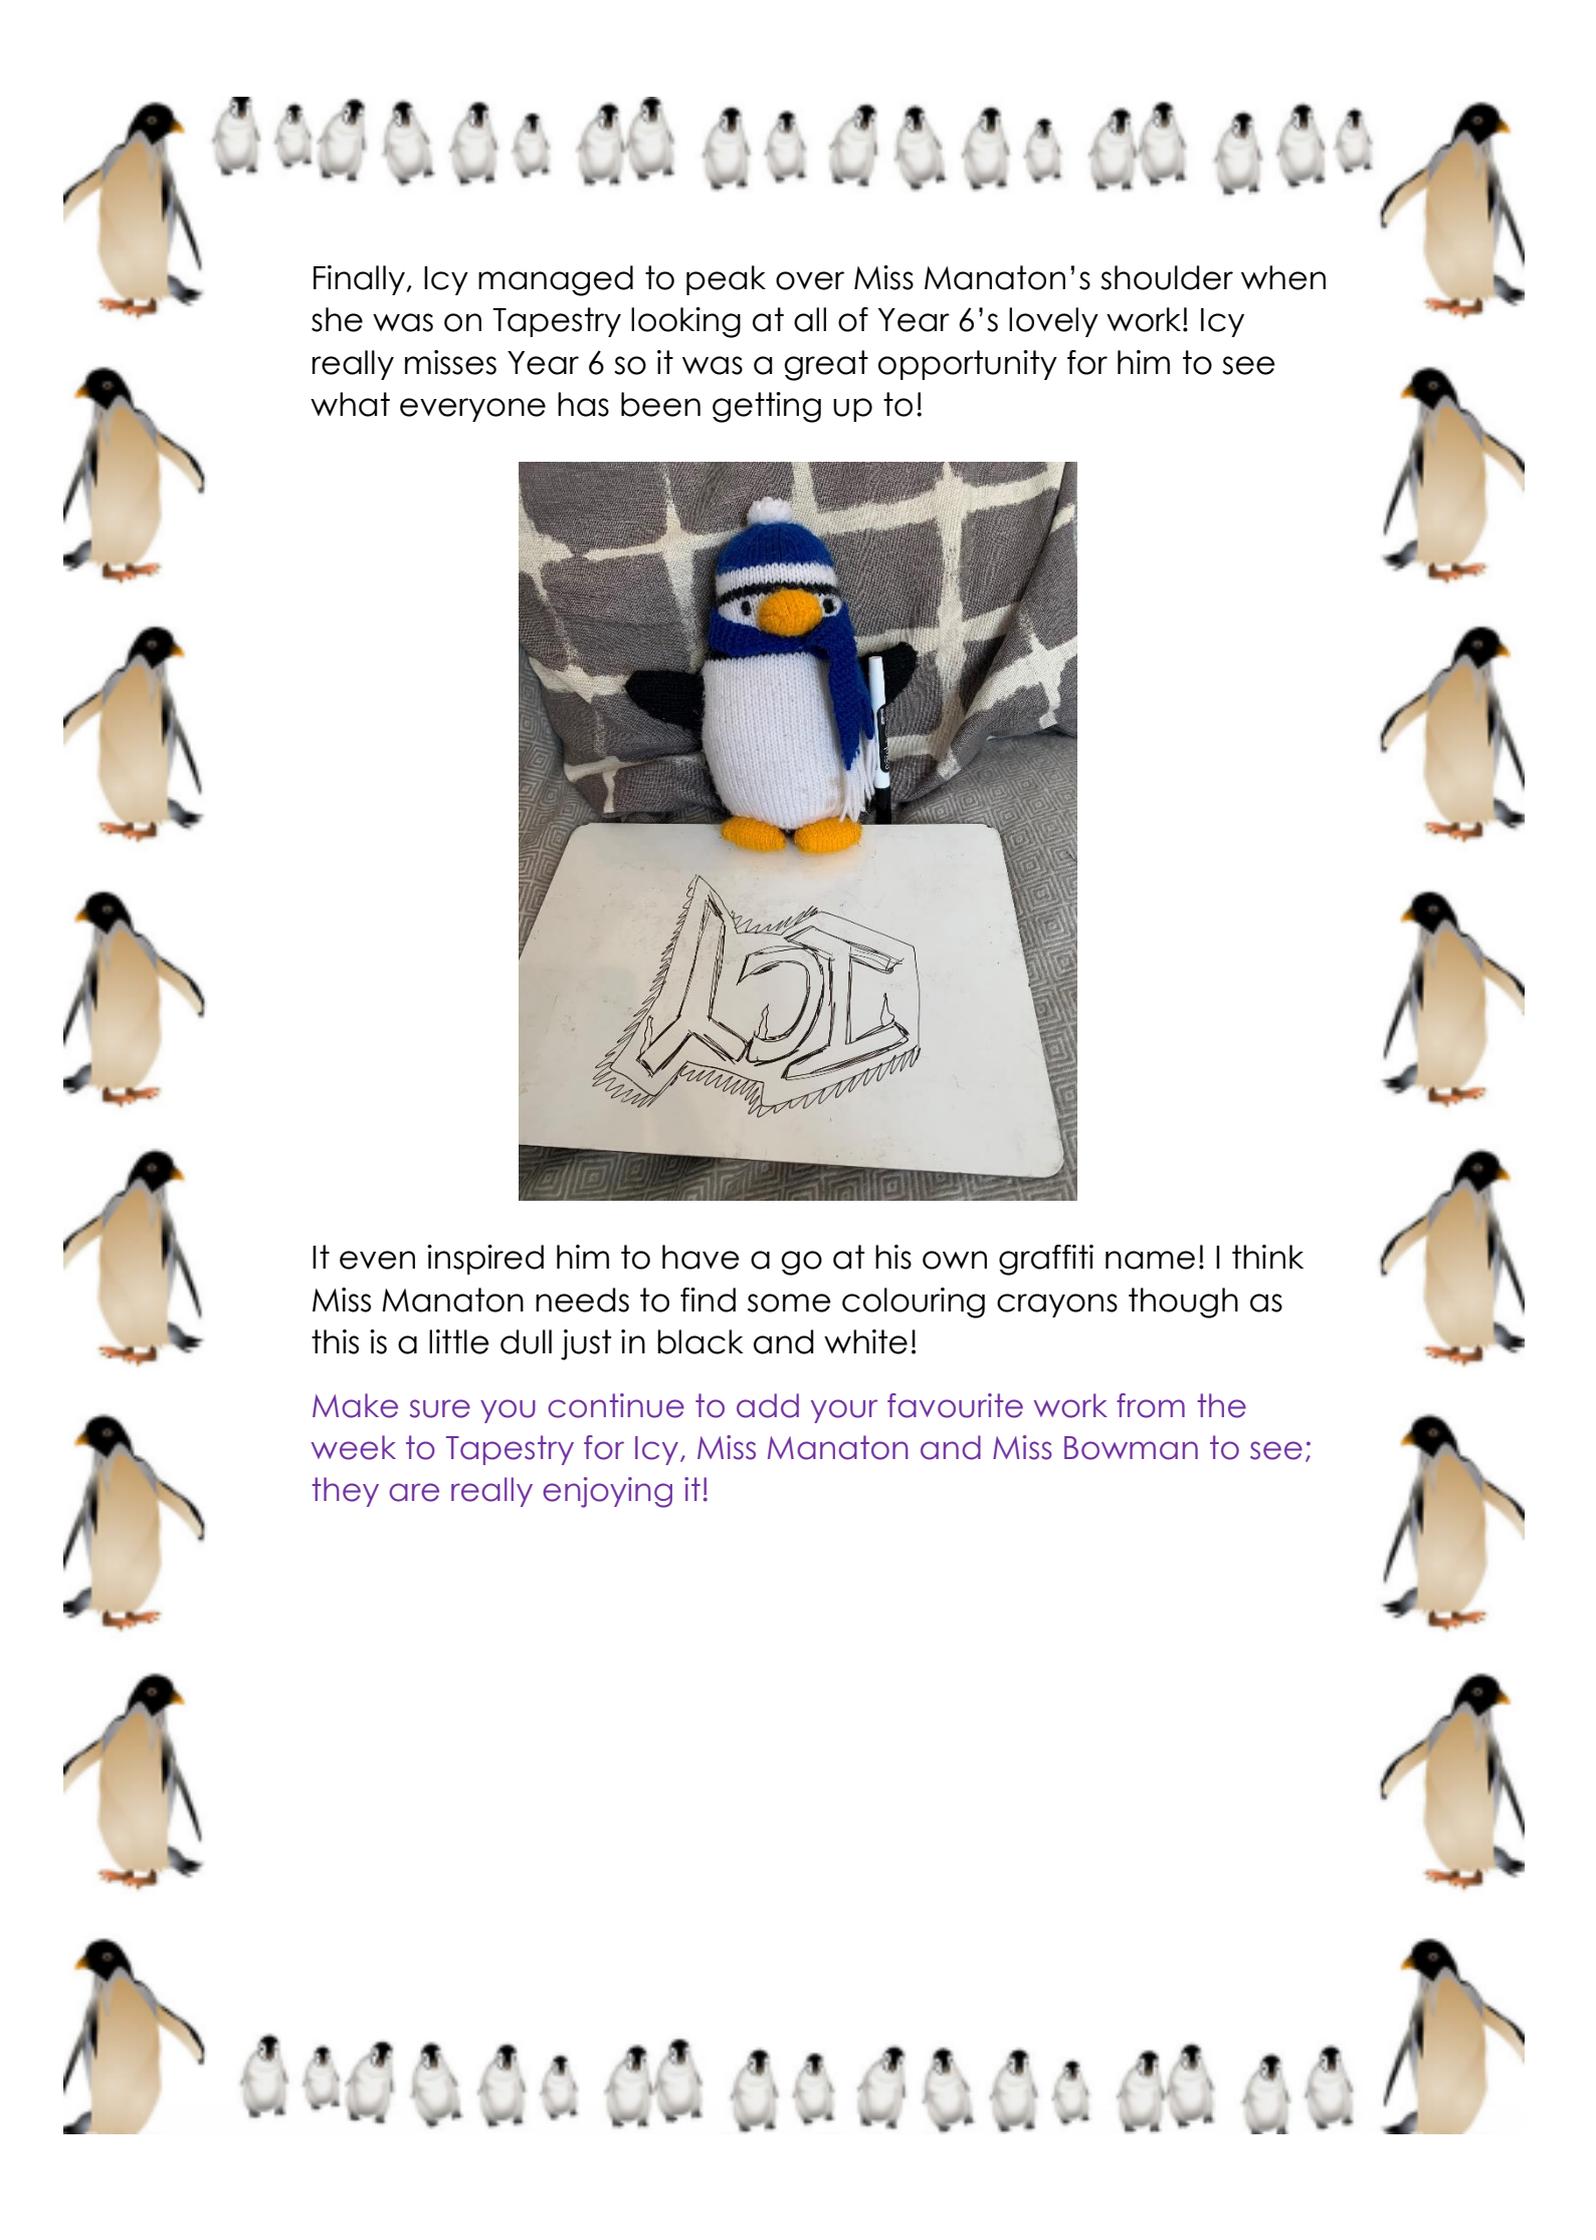

Icy has really challenged himself during this lockdown. Before now, Icy has been a bit picky with what food he will eat. Ironically, Icy has never liked tuna (even though penguins grow up eating fish!).

However, because Miss Manaton can't go to the shops as easily now because we have to all stay at home to stay safe, Icy has had to become more adventurous with what he eat!

It took a while, and a fair few jacket potatoes, but Icy now likes eating tuna for lunch! Well done Icy for persevering with this new food!

Icy has found another new game at Miss Manaton's house! He was a bit scared of this one at first because it was all about collective vegetables, but as Icy is learning to eat new things, he is also learning to play new vegetable related board games!

Finally, Icy managed to peek over Miss Manaton's shoulder when she was on Tapestry looking at all of Year 6's lovely work! Icy really misses Year 6 so it was a great opportunity for him to see what everyone has been getting up to!

It even inspired him to have a go at his own graffiti name! I think Miss Manaton needs to find some colouring crayons though as this is a little dull just in black and white!

Make sure you continue to add your favourite work from the week to Tapestry for Icy, Miss Manaton and Miss Bowman to see; they are really enjoying it!
