

# Year 5 – Science - Terms 5 and 6 : Animals including humans

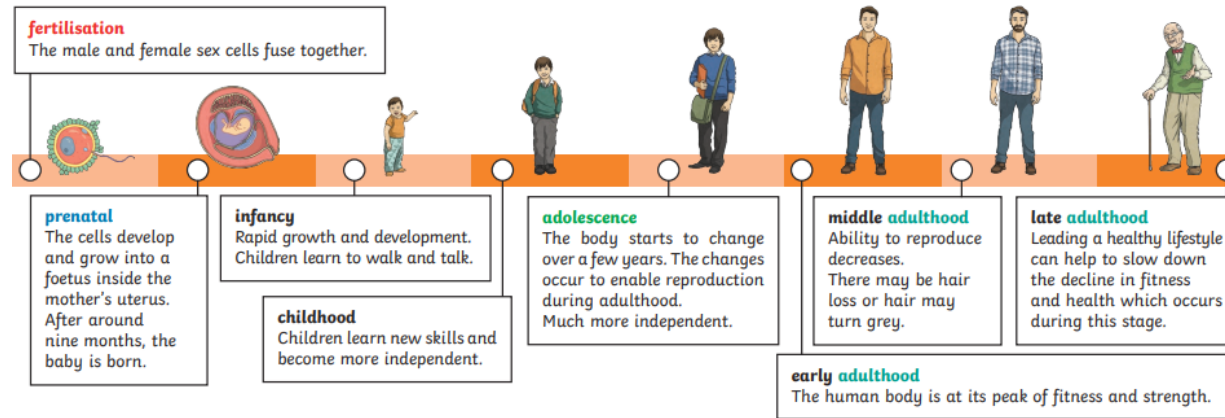

**Curriculum Key Question:** Where are we going?  
**Topic:** Where the Vikings vicious? / Where in the world?

## What should I already know?

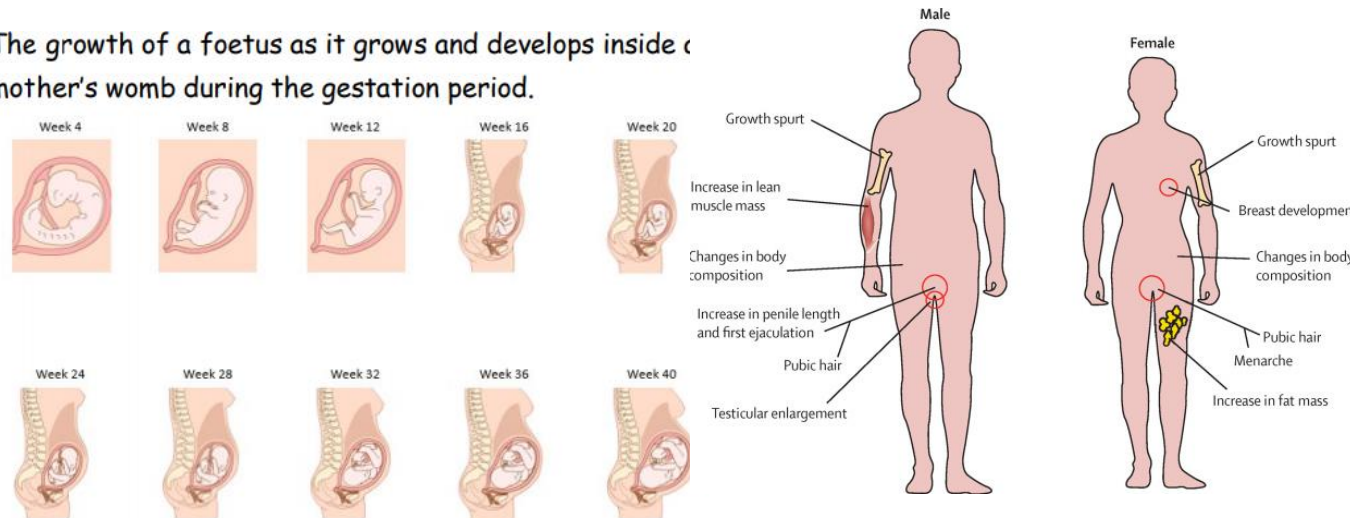

- Know that animals, including humans, have offspring which grow into adults (Year 2)
- describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene (Year 2)

## Scientific Skills I will develop:

- To report findings from enquiries, including oral and written explanations of results, explanations involving causal relationships and conclusions.
- To interpret observations and data.
- To record data and results if increasing complexity using scientific diagrams, keys, tables, bar and line graphs.

## The growth of a foetus as it grows and develops inside a mother's womb during the gestation period.

## Key Vocabulary ( including definition:

**Adolescence:** the process of developing from a child to an adult (teenager).

**Adult:** A person who is fully grown or developed.

**Child:** A young human being below the age of puberty.

**Foetus:** an unborn or unhatched offspring of a mammal.

**Gestation:** the period of developing inside the womb between conception and birth.

**Reproduction:** creating offspring by a sexual or asexual process.

**Life expectancy:** the average period that you may expect to live.

**Hormones:** substances in our blood that influence our mood or behaviour.

**Menstruation:** the process in a woman of discharging blood and material lining from the uterus.

**Testosterone:** a hormone that helps the development of male characteristics in the body.
